Performance of LHCb Upgrade I in Run III

Thursday, 20 July 2023 16:50 (20 minutes)

LHCb has played a major role in charm physics over the last years analysing data recorded during Run I and Run II. Recently, the LHCb detector has undergone a series of major upgrades. This talk will include the first performance results from the new LHCb detector in Run III and a brief look into the future charm physics program of the collaboration.
